**Subscribing** is important because...this automatically downloads the episode for you! Also to gain credibility in the podcast world, The Encourager needs to have a substantial number of downloads per episode. Thank you for helping us do that!

**Rating** is...the star icons that are shown alongside each episode or correspond with the podcast in general. The optimal five-star rating is important because the higher rated our podcast is, the better chance we have to be listed on the New and Noteworthy list in iTunes.

**Reviewing** is important because...reviewing also contributes to our ranking within New and Noteworthy and other iTunes promotions. The reviews are also nice to see because they give us the feedback we are looking for—to make the podcast the best it can be! We appreciate your time and honesty in those reviews!
